

Sri Lanka Tourism
Status Report - UPDATE 07.12.2025
Time: 1230 HRS

1. Details of Electricity Restoration in Tourism Zones

92% of the national power supply has been successfully restored across the country. Full power has been returned to the Vavuniya, Ampara, and Mahiyanganaya Grid Substations. Restoration efforts are now concentrated on the few remaining remote areas to achieve 100% network recovery.

2. Fuel Availability in Tourism Zones:

CPC Operational Status and Fuel Distribution Update:

All Ceylon Petroleum Corporation (CPC) operations and fuel distribution across the country are currently proceeding according to schedule and maintaining stability. The only exceptions involve localized temporary disruptions to operations in the Ruwanwella and Ganoruwa areas which are being addressed and expected to be rectified within the course of the day.
